

## TANEY COUNTY REPUBLICAN

BY W. H. PRICE.

### Forsyth

FORSYTH, the county seat of Taney county, is a beautiful and centrally located city at the junction of the sparkling waters of the Swan with the swift and crystal current of beautiful White river. The site is ideal, and the little, well built and well painted city, fastened at the meeting of the waters like a gem at the throat of beauty, while the wooded ridges flank in every direction the central figure, all form a picture which lingers long in the memory of the visitor—and usually comes back to refresh the picture.

The great Presbyterian church is now building here its college for southwestern Missouri and northwestern Arkansas, making of Forsyth a prominent college town. The fact that Forsyth donated a forty-acre site and over five thousand dollars toward the establishment of this school sufficiently indicates the attitude of our people toward the higher education. The fact that the committee representing the church has acquired an additional 120 acres of land affords some clue to the magnitude of the plans of the church. It is proposed to spend \$50,000 on this school plant, which will open January 1, 1907.

We have a good graded school, a neat stone chapel open to all churches, a well supported union Sunday school, daily mail service from all directions—in short, more advantages than many a more populous and wealthy community.

Well equipped mail and back lines, with headquarters here, give daily connection with the Frisco, at Chadwick, and the White River line of the Missouri Pacific, at Branson.

Most lines of business are represented, including general merchandise, drug, millinery, hotels, livery, lumber, meat market, undertaking, printing, painting, milling, blacksmithing, carpentry, etc.

We have an able and sufficiently numerous corps of lawyers, a good physician, and real estate men enough.

We need a resident dentist, a furniture store, a hardware store, a wood-working factory to utilize our native woods, and various other enterprises can find or make good openings.

### wanted, A Man.

Wanted—A man to fit horse shoes who can put on a bigger toe.

Wanted—a man who can make them harder or last longer.

Wanted—A man who can nail them on large enough so that they will not cramp the foot.

Wanted—A man who can drive a spoke tighter and so that it will not get loose in the hub, and who can put on a tire so that it will not dish a wheel so that it will hold soap.

All work warranted to give satisfaction or will do it over free.

You can find such a man at Swan, Mo.

W. S. JONES.

### Notice to Teachers

Notice is hereby given that the next regular examination for teachers' certificates will be held at Taneyville, Missouri, Friday and Saturday, March 22 and 23, 1907.

J. W. ROZELL, Secretary.

I would exchange rough or dressed lumber for a good sized, able bodied, true working, cheap team. C. Hall, Garrison, Missouri. (4)

### Hypnotic Were Even.

"Tibbits" tells this: "Sure," said Patrick, rubbing his head with delight at the prospect of a present, "I always mane to do me duty."

"I believe you," replied his employer, "and therefore I shall make you a present of all you have stolen from me during the year."

"Thank ye, yer honor," replied Pat, "and may all your friends and acquaintances treat you as liberally."

### Chamberlain's Cough Remedy is Both Agreeable and Effective.

Chamberlain's Cough Remedy has no superior for coughs, colds and croup, and the fact that it is pleasant to take and contains nothing in any way injurious has made it a favorite with mothers. Mr. W. S. Pelham, a merchant of Kirksville, Iowa, says: "For more than twenty years Chamberlain's Cough Remedy has been my leading remedy for all throat troubles. It is especially successful in cases of croup." Children like it and my customers who have used it will not take any other." For sale by City Drug Store, Forsyth, J. A. Lamb, Taneyville, and Jno. T. Dickenson, Dickens, Mo.

### An Old Landmark Gone.

The tower and tank which has stood for so many years on the south side of the court house grounds was torn down the first of the week, and will be erected on the grounds of the School of the Ozarks on the hill, to which institution it was donated by the citizens of Forsyth who owned interests in it. The court house premises look better without it, and it will serve a useful purpose on the hill.

### Rheumatic Pains Relieved.

B. F. Crocker, Esq., now 84 years of age, and for twenty years justice of the peace at Martinsburg, Iowa, says: "I am terribly afflicted with sciatic rheumatism in my left arm and right hip. I have used three bottles of Chamberlain's Pain Balm and it did me lots of good." For sale by City Drug Store, J. A. Lamb, Taneyville, and Jno. T. Dickenson, Dickens, Mo.

Henry Brock, of Bradleyville, who has been awarded the carrying of the mails between Forsyth and Chadwick beginning July 1, has purchased the J. A. Tolerton residence property and will occupy it at once, thus becoming a citizen of Forsyth. Consideration \$15,000.

"Mieawber," one of the Republican's live correspondents at Bradleyville, remarks: "Last week's Republican would be hard to beat." The Republican is delighted to hear such compliments, and gladly acknowledges the credit due to this and other correspondents for their assistance in making a paper of which such an opinion may be seriously expressed.

"Preventives" will promptly check a cold or the gripe when taken early or at the "sneeze stage." Preventives cure seated colds as well. Preventives are little candy cold cure tablets, and Dr. Shoop, Racine, Wis., will gladly mail you samples and a book on colds free, if you will ask him. The samples prove their merit. Check early colds with Preventives and stop pneumonia. Sold in 5c and 25c boxes by all dealers.

A letter from J. F. Wells, a Taneyite at Olympia, Washington, covering a remittance on subscription, states that he has failed to receive the paper but once since he reached Olympia, about a year ago, and continues: "You may tell your readers that myself and family are in the best of health, as are almost all the Taney county people here whom I know. Jake Milbourn is sick in the hospital here. I went to see him yesterday. He has many warm friends here."

R. A. Butterfield, a former Taneyite who has lived at Norman, Oklahoma, for several years but went to Long Beach, California, last fall, has returned to Oklahoma. Mr. Butterfield is a regular reader of the Republican, and a remittance received from him Saturday sets his subscription up to 1909, giving him a clear title to the home paper for a longer time ahead than any other person on our books. He remarks that as it was not convenient to send word he trusted cash would serve. There are quite a good many other subscribers on the list to whom we would like to recommend the same brand of breakfast food used by Mr. Butterfield.

Does Coffee disagree with you? Probably it does! Then try Dr. Shoop's Health Coffee. "Health Coffee" is a clever combination of parched cereals and nuts. Not a grain of real coffee, remember, in Dr. Shoop's Health Coffee, yet its flavor and taste matches closely old Java and Mocha coffee. If your stomach, heart or kidneys can't stand coffee drinking, try Health Coffee. It is wholesome, nourishing and satisfying. It's nice even for the youngest child. Sold by B. B. Price.

Mrs. E. A. Renfro received a short time ago the sad news of the death of her sister, Mrs. J. F. Short, of Oconto, Nebraska. The fact that Mrs. Renfro expected her sister and family here in a few days on a visit, with the chance that they might locate here renders the blow all the more severe.

### "Tad" Lincoln's Command.

"One of the stories I like best about Tad and his father, Secretary Stanton used to tell," says "Aunt Janet" in the Woman's Home Companion for February. "One day—the boy was scarcely ten then—he happened in the office of the Secretary of War in search of amusement. Mr. Stanton for the fun of it, commissioned him lieutenant of the U. S. Volunteers. Very elated and important, Tad went immediately and ordered a quantity of muskets sent to the White House, organized and drilled the house servants and gardeners, discharged the regular sentinels about the premises and ordered his recruits on duty as guards. Things took rather a serious turn, when servants who had been at work all day were ordered to keep watch all night. Tad would listen to no one—he would be obeyed. The President was at last appealed to. He took Tad's boyish whim in good part, and in his great gentle way sent the little lieutenant, tired out but very happy and important, to bed."

3rd. To increase the number of directors of said Bank from five to seven.

This call being made by order of the Board of Directors of said Bank, and based upon a petition signed by the holders of a majority of the shares of stock in said Taney County Bank, as provided by Section 1290 R. S. 1899.

J. A. WEATHERMAN, President.

S. W. BOSWELL, Secretary.

Any person desiring to take stock may call on or address S. W. Boswell, Secretary, Forsyth, Missouri.

### Copper in the Ozarks.

In the Yellville Republican of last week occurs this paragraph:

The mine near the depot in which the heavy deposit of iron pyrites was passed through has been purchased by Ft. Smith capitalists at a consideration of \$15,000. An option was taken on the property some time ago and considerable shaft work done. One of the assays showed the ore to contain 34 per cent copper and it is supposed this was the main reason for purchasing the property. The shaft is now down to a depth of about fifty feet but it is proposed to test the ground thoroughly by means of a prospect drill before re-sinking the work of sinking. Operations will be carried on under the style of the North Yellville Mining, Milling & Smelting Company.

The above is of considerably more than passing interest here because of the known presence of copper in various forms in Taney county, several promising specimens of which have been handed to the writer. Among these specimens are gray and yellow copper, while copper pyrites may be found in nearly every portion of the county. Our lack is men of nerve and capital to go down into the earth and test the lower strata. Surface indications abundantly warrant such action, and the presumption is very strong that such a course will develop more things than copper.

### It Pays to be Decent.

Under the above heading the Yellville, published at the county seat of Camden county, indulged last week in some comparisons between the conditions under the reign of whiskey and conditions at the present time, and then proceeded:

Last week demonstrated some of the advantages of a "dry" town and county and a better moral sentiment in this regard. We have looked in vain for the "ruin of trade," the blind tiger evil, the falling off in population and production, the bankrupt condition of county finances, or the thousand and one difficulties in the way of a little practical decency that we were led to expect.

We believe everybody makes as much money as before. We know that many make more and save more. And where is the falling off in trade? Certainly the men of Camden county as a whole buy more and better clothing for their families, a better class of food and more conveniences and luxuries generally. They live in better houses, the farms are better improved and tilled. The church, the school, the newspaper and all public enterprises are better supported. Society is on a better plane and life is better worth living. Therefore our community is in a position to endure, with some degree of fortitude, all the evils which the temperance movement has brought upon us.

### Land Office Breaks All Records.

February was a record breaking month in the U. S. land office at Springfield, the entries totaling almost 20,000 acres, and the receipts for the month aggregating \$23,558.48. This is about as much as was formerly received in a year.

The feature of the business for February was the large cash entries by single individuals, among whom were Henry Gardner of Newton, Kansas, who entered 10,500 acres in Laclede and Phelps counties, and W. H. Johnson of Springfield, formerly of Forsyth, who entered several thousand acres in Stone county, practically cleaning up the government land in that county.

It is claimed there is only about 60,000 acres of government land remaining in the state, of which this county has a very small portion, possibly 2,000 acres.

Many residents of the county will later regret that they failed to avail themselves of the opportunity to annex land at government prices. Land in Taney county at prevailing prices with in the last ten years would have proven a good investment without regard to the character of the land. Its price will tend steadily upward for many years to come, and this tendency will be all the more marked because of our many advantages of climate and products. If you already own a little Taney county land, get a little more if you can possibly do so. If you do not, it is high time to act before it is too late.
